

## Who are we?

### Administratively:

University of Colorado Medicine (or “CU Medicine”) offers business and clinical operational support to over 3,600 University of Colorado School of Medicine clinical healthcare providers. We are dedicated to ensuring our providers are well-connected within the community.

### Clinically:

We are the leaders in healthcare partnerships throughout the community and across the region who provide the complete spectrum of clinical care

## Our Mission

It is our mission to provide patients with care that is safe, personal, coordinated and of the highest quality and value by bringing care close to home and supporting CU School of Medicine providers throughout the region. At CU Medicine, high quality incorporates superior patient experience, outcomes, research and education.

## Our Vision

To be the leader in the complete spectrum of clinical care, close to home, with quality outcomes in the western United States by harnessing the collaborative and collegial culture and comprehensive nature of the clinical enterprise.

## Our Partnerships

CU Medicine providers work within the UHealth, Children’s Hospital Colorado and CU School of Medicine facilities. We are an integral component of the Anschutz Medical Campus and the functionality and success of these entities.

Additionally, CU School of Medicine faculty providers partner with multiple healthcare facilities and systems across the region.

We provide the complete spectrum of high quality clinical care, close to home, while working collaboratively with these well-established entities

### Partners:

- UHealth
- Children’s Hospital Colorado
- Veterans Health Administration
- Denver Health
- National Jewish Health

## Our Practices / Our Principles

Physician leadership is an essential element of successful practice. Engaged physicians are better doctors.

Local control with centralized coordination and alignment through CU Medicine

NCQA Level III recognized Patient Centered Medical Homes supported by PCMH documentation specialist/coach to assist with ongoing accreditation

Centralized services including scheduling, referrals, prior authorization management and refills
